Timeless wisdom of
natural clay

VIAPOT is a brand that brings together the timeless wisdom of clay with contemporary design and a robust production infrastructure.

VIAPOT operates on a 22,000 m² site, with manufacturing activities carried out in a 17,000 m² covered production facility. The company's production model is environmentally responsible, supported by solar energy. VIAPOT is a high-capacity and reliable manufacturing partner, with an average daily production capacity of 150,000 pieces and the ability to process 120 tons of raw materials per day.

Our products are designed to combine functionality, food safety, and aesthetic balance, delivering a seamless oven-to-table experience.

At the core of our production lies a team of more than 250 skilled professionals, 86% of whom are women. Through meticulously managed processes that seamlessly integrate traditional pottery techniques with advanced manufacturing technologies, each product is crafted to meet the highest standards of authenticity, consistency and quality.

R&D and Design processes are fully integrated in-house, allowing VIAPOT to maintain complete control over every stage—from material research and form development to performance testing and production optimisation.

VIAPOT manufactures using 100% recyclable natural materials and places sustainability at the centre of its production philosophy. By utilizing renewable energy and environmentally responsible processes, we reduce environmental impact while delivering durable, food-safe products designed for long-term use.

Our facility is equipped with state-of-the-art machinery and innovative production methods, enabling us to produce high-quality products for both local and international markets.

Our BSCI (Business Social Compliance Initiative) certification is a testament to our unwavering commitment to upholding ethical production standards, ensuring the rights of our employees are respected, and practising responsible manufacturing methods. All collections are produced in compliance with zero lead and zero cadmium standards, ensuring safe, healthy, and long-lasting use.

At VIAPOT, quality is not a final goal—it is a core value embedded in every stage of the production process. Products are developed with meticulous attention to detail, with a focus on durability, reliability and timeless design.

This comprehensive strategy positions VIAPOT as a responsible, innovative, and long-term partner for brands, professionals, and retail customers.

VIAPOT is committed to conscious production and meaningful design, bringing the purity of earth to the table.

For Nature, For the Future

Sustainability is not a trend for us, it is a natural outcome of our respect for the earth.

Each piece comes to life without disrupting nature's rhythm, shaped by a careful balance of **soil, water, and fire**.

We produce only what is **needed**, never more than nature can carry.

We choose what is **timeless, durable, and true**.

We believe in giving back with value what we take from nature.

Because true quality is felt not only in the hand, but also in the conscience.

Viapot brings beauty to today's tables while protecting tomorrow's world.

Guided by the wisdom of the earth, shaped with respect for nature.

Quality and Food Safety

Viapot, aiming to be a trusted brand in the ceramics sector, integrates superior quality in production and service with an affordable price policy based on customer satisfaction and food safety. By closely following developments in the sector, we improve the level of product quality and food safety compliance, and increase the professional knowledge and skills of our employees through training.

One of our primary goals is to comply with legal regulations and customer conditions and provide necessary resources. We are an exemplary company that ensures 100% food safety by determining food hazards and critical control points, and contributing to the protection of the environment in all our activities. We adopt the principle of achieving success with our employees, support their development, enable them to take initiatives, and provide a safe working environment for our personnel.

Our quality and food safety policy is to be a model enterprise in every aspect by measuring the effectiveness of our management system, which is in compliance with the Quality and Food Safety Management System conditions, and committing to continuous improvement.

As Viapot, we continue to offer what we take from nature to your life.

Terracotta

Ramekins & Bowls

Natural packaging solutions for food producers,
Cooking and serving utensils for restaurants and HoReCa operations,
Healthy and aesthetic kitchen products for retail customers.

Ramekins & Bowls

Viapot terracotta ramekins and bowls are designed as dual-purpose products, suitable for both food packaging and active use in the kitchen. They are among the most valuable product groups for HoReCa, restaurants, food manufacturers, and retail customers alike.

Made from natural clay, Viapot ramekins and bowls are safe for food contact, free from chemical additives, and produced with an environmentally responsible approach. Their healthy, natural, and sustainable structure meets the expectations of professional kitchens as well as conscious end consumers.

Unglazed – natural, breathable surfaces

Semi-glazed – balanced performance with distinctive character

With their durable structure, natural texture, and timeless design, Viapot clay bowls are more than containers. They protect food, enhance presentation, and add value to the brands that use them.

COLOR OPTIONS

A person's hands are shown holding a large, round terracotta pot filled with a colorful vegetable soup. The pot is placed on a wooden surface. In the foreground, a smaller terracotta bowl filled with a white, creamy sauce sits on a red and white checkered cloth. To the left, there are several dark red chili peppers on a wooden cutting board. A wooden cutting board is also visible on the right side of the frame. The background is dark, making the food and the person's hands stand out.

**‘Because great food is
never rushed.’**

Cooked in Earth. Perfected by Time.

Food cooked in a clay pot is never rushed.

Natural clay distributes heat gently and evenly, allowing ingredients to cook slowly, retain their moisture, and preserve their nutritional value.

As steam circulates within the pot, flavors deepen, textures soften, and meals develop a richness that modern cookware simply cannot replicate. Less oil, less seasoning — more natural taste.

Rooted in centuries-old cooking traditions, clay pot cooking transforms simple ingredients into nourishing, honest food. Because when food cooks in earth, it returns to its most authentic form.
